---

## Summary

---

Front-end web developer leveraging sales background to build a more interactive user experience on the web. Recently earned a certificate in full stack development from the University of Miami, with newly developed skills in Javascript, HTML, CSS, Node.js, and SQL. Problem-solver with a hard-nosed attitude perfect for completing difficult assignments and projects. Excited to leverage my skills as part of a fast-paced, quality-driven team to build better experiences on the web.

---

## Experience

---

### Elite Source Recruiting / Technical Recruiter

January 2022 - June 2022, Tampa, FL

Reached out to potential candidates via linkedin recruiter and CareerBuilder. Called candidates to discuss their qualifications and ideal opportunities. Helped candidates through interview process to place into tech based roles.

### Sunbelt Staffing /Account Manager

March 2021 - January 2022, Tampa FL

Cold called candidates to pitch school based healthcare positions. Managed candidates through bullhorn CRM. Cold called school districts to discuss their staffing needs and how sunbelt can assist. Negotiated placement deals with school districts.

### Florida Financial Advisors / Junior Financial Consultant

May 2020 - February 2021, Tampa FL

Cold called potential clients using hubspot and linkedin. Established relationships with clients through phone calls and meetings over zoom. Helped clients to analyze their current portfolios and how to achieve their financial goals.

---

## Projects

---

### DevConnect

A social media platform for developers to connect and share their projects with one another. DevConnect is like github, linkedin, and facebook all rolled into one application. This project was created using HTML, CSS, JavaScript, Express, Handlebars, and SQL.

Github: <https://github.com/evanbruce38/dev-connect-portfolio-sharing>

Link: <https://dev-connect-portfolio-sharing.herokuapp.com/>

### Find A K-9

An application created to allow users to search for a K-9 picture based on their breed. The application uses a dog picture web API to provide photos of different breeds. This application uses HTML, CSS, JavaScript, and web based API.

Github: <https://github.com/evanbruce38/Find-a-K-9>

Link: <https://evanbruce38.github.io/Find-a-K-9/>

## Weather Dashboard

This application uses a live weather API to allow users to search for current weather conditions by city. This application uses HTML, CSS, and javascript, along with the weather API.
